Launch Budget - CEO Summary

Status: Active | Aug 23, 2026 | Author: Dozer | Indo infra pricing basis

Bottom line

Question	Answer
What do we need to buy?	Paystack live, Indo hosting + domain, 1-3 suppliers, WhatsApp.
Minimum budget before funding?	Scenario A (recommended): Rp0 US\$0 N0 for company - subdomain dova.dntech.id FREE, infra covered by Dozer (CTO proposal). If company pays VPS directly: Rp109,000 US\$6.16 N8,326/mo (domain still FREE). Optional .com: +Rp139,900 US\$7.90 N10,681. Paystack: tx fees only.

Key point: MVP built. This budget activates it - not new development.

Indonesian infra pricing basis

Scenarios A/B/C use published Indonesian rates. USD/NGN = conversion for comparison. Prices can change at the time of purchase - treat these figures as estimates, not a locked quote.

Infra proposal (Dozer): I support and cover the existing infrastructure (Biznet Gio VPS, existing dova.dntech.id live site, and technical ops) until meaningful investor funding is secured - no upfront infra or domain spend. This is an in-kind contribution; it does not transfer ownership of the underlying infra or technical assets. Any transfer or migration to company-owned infra will be handled under the final written agreement. In return, I propose the CTO position for product, engineering, and go-live.

Ownership note: Scenario A infra is currently provided and controlled by Dozer. DOVA may use it to operate the product; use does not by itself transfer ownership of infra, accounts, code, repo, configs, or other technical assets.

Scenario B - Standalone Minimal

AWS alternative (NOT Indonesian infra)

AWS bills in USD globally. IDR/NGN are converted for comparison; final cost varies by exchange rate, region, and data transfer.

Option	Provider	USD/mo	IDR conv.	NGN conv.	Use
Small	AWS Lightsail	US\$12	Rp212,460	N16,224	Basic launch
Medium	AWS Lightsail	US\$24	Rp424,920	N32,448	More capacity

Quick comparison (Indonesian infra)

Scenario	Domain	IDR/mo	USD/mo	NGN/mo	IDR once	USD once	NGN once
A - My Own Infra	dova.dntech.id FREE	Rp0	US\$0	N0	Rp0	US\$0	N0
A - + .com	DomaiNesia	Rp0	US\$0	N0	Rp139,900	US\$7.90	N10,678
B - Standalone	DomaiNesia	Rp80,000	US\$4.52	N6,111	Rp139,900	US\$7.90	N10,678
C - Scale-Ready	DomaiNesia	Rp139,000	US\$7.85	N10,610	Rp139,900	US\$7.90	N10,678
